

## WEATHER BULLETIN.

WEATHER BUREAU,  
DEPARTMENT OF AGRICULTURE,  
WICHITA, KAN., OCT. 19, 1891.  
Forecast for Wichita and vicinity—  
Warmer and fair.

The highest temperature was 68°, the lowest 35° and the mean 53°, with cloudy weather, rising temperature, gentle north to light south winds, falling barometer.

For the past three years the average temperature for the month of October has been 58° and for the 15th day 52°.

PHIL L. JOHNSON, Observer.

WASHINGTON, Oct. 19.—Forecast until 9 p.m., Tuesday.

For Kansas—Fair till Wednesday; slightly warmer; southerly winds.

For Missouri—Fair till Wednesday; warmer, winds becoming southerly.

## ELMER E. BAKER.

MILWAUKEE, O. T. Oct. 19.—(Special.)—Elmer E. Baker, manager of the Carey, Lombard Lumber company, died at 10 p.m. Saturday of hemorrhage of the bowels. Mr. Baker was formerly of Wichita, where he was in the employ of Caswell & Chandler.

Between the injury and the above named company's business, which has prospered under his management, he leaves a young wife and a father and four brothers in Illinois and Kansas. No man in this community will be more sincerely and universally mourned. His estate is being settled by the number of his acquaintances.

## A DARK HORSE.

LANSING CITY, O. T. Oct. 19.—At a meeting here today, at which 1,500 people were present, a resolution was unanimously adopted declaring it to be the sentiment of the negroes of Oklahoma and a number of whites that they had chosen for Governor the negro, E. P. McCabe, and their second choice John L. Dille.

## THE BUSINESS OUTLOOK.

NEW YORK, Oct. 19.—Henry Clews, in his weekly financial circular, says: "Between the injury to the wheat from the late storms and the increased yield of winter wheat, it can only be roughly guessed what will be the domestic output of that cereal; while the estimates of the European crop are improving and may quite possibly reach considerably larger dimensions than have hitherto been expected. The cotton crop also can be but vaguely guessed in its present stage. The government Oct. 9 report shows a very serious decline in the condition given in the estimates of September, but there is much reason to believe that the data on which the bureau of agriculture bases its figures may have been distorted through influence coming from the Farmers' Alliance; and this suspicion is countenanced by the tenor of private advice as well as by the unprecedented volume of the current receipts of cotton. There are, however, so many counter-factors about this crop for the next few weeks that no expert would venture a definite estimate of it until December. It is also to be noted that while the business of the country at large is steadily improving, yet at present there is no such thing as general trade as has been expected from the extraordinary harvest; this, however, is largely explainable from the fact that the real results of a good harvest do not come until the products have been in a good measure marketed, which, at this stage, is not true of any of our farm staples. Looking to the uncertainties about the outcome of the grain and cotton crops, for the time being, as to what may be the result of the traffic. While, therefore, there can be no question about the ultimate abundance of the crops and of the beneficial effects of that abundance upon the general trade of the country at a later period, yet these uncertainties as to certain details justify some hesitation in speculative transactions, and afford much cause for regret in helping those who may be interested in a decline in the prices of securities.

"At this point, money, both on call and on time, works easier, owing to the imports of gold and the declining demand from the interior for currency. This feature facilitates the carrying of stocks and is so far a fact of some importance.

"For the present, the situation warrants conservatism. The bulk of the upward movement is liable to produce frequent temporary drops and quick rallies in prices; and it is advisable to wait for the periods of such fluctuations, or to take occasional positions for either buying or selling. But notwithstanding the prudence of these reservations, I see no reason for any weakening of confidence in the ultimate recovery of the boom and in a further advance of prices when the later benefits of large crops and of abundance of money make themselves more broadly felt.

## THE IRISH QUARREL.

CHICAGO, Oct. 19.—At an Irish meeting, touching Parnell's death, the fatal course to be pursued in the Irish agitation John Devoy said that his life had been unaltered by the death of Parnell and the subsequent efforts of his friends to influence the cause which he espoused. Touching the compact between the leaders of the physical force party and Parnell, Devoy said: "If Henry had been in the revelation business, there will be revelations made that will show them in a different light. I have seen the friends of Parnell and Michael Davitt in 1879, when conditions were made the adherence to which was laid down to Parnell as the irrefragable minimum of what would be given for Ireland. He wanted it understood that he was not to be made the puppet of capricious politicians. Parnell pledged himself to home rule, which he demanded, and that no member of the Irish party should take office until it was accomplished.

"If any question of veracity is raised, documents are in existence to prove the truth of everything I have said. Parnell died true to these principles, and the desperate struggle was to move sure that these conditions were embodied in a home rule measure and the Irish members kept true to them. Devoy kept these conditions faithfully about two years, and then, knowing that I dared not speak for fear of injuring the movement and that Parnell could not speak, began his conspiracy to destroy Parnell and his friends and his services. Davitt and Devoy were bound together in this conspiracy. I do not say that Dillon, O'Brien, McCarthy, Arthur, O'Connor and the rest of the party were aware of the reasons for or of the existence of their conspiracy, but they had been warned enough to have warranted them in taking a different course."

## THE SOUTHERN ALLIANCE.

BALTIMORE, Md., Oct. 19.—Ex-United States Senator Wade Hampton is visiting in this city. He said to a representative of the Star that he was not in the city for the future to take part in the campaign. The Farmer's Alliance, he said, is rapidly disintegrating in the south, and within the next four years will be completely destroyed, to give only in the memory of those who have been benefited by the upheaval.

Only in South Carolina, but throughout the whole South. The people there are rapidly awakening to the enormity of the demands that are being made upon them and are gradually coming to the conclusion that the Alliance is a fraud and a deception and are turning away from it. In my own state the governor, who was elected by the Alliance, has already broken away in great measure from Alliance measures, and is catering to the conservative and better thinking element. The uprising was founded on demagoguery and fanaticism and there cannot have a long career. As the history of this country has shown that no secret political organization can long retain any lasting hold on the public.

## FAILURES.

KANSAS CITY, Oct. 19.—The Alliance Packing company of Armourville, Kan., assigned this evening to J. J. Quinn, president of the Interstate National bank, at the stock yards. The liabilities of the company are \$100,000. The assets are something in excess of the figure. The company did a general meat packing business.

No niple, spot, or blemish disfigures his skin preserved by CUTICURA SOAP.

## ECONOMIC CHESTNUTS.

TOPEKA, Kan., Oct. 19.—The Grand opera house was packed this evening by people who attended the first joint meeting of the series of six to occur between Senator Peffer and Hon. J. R. Burton of Adelaide. Mr. Burton opened in an hour's speech and closed in a half hour's address. Senator Peffer filling the intermediate hour and a half. Senator Peffer's speech was in defense of the Alliance movement, as a result of outrageous financial enactments. Mr. Burton defended the Republican party and defined the causes of hard times, from which he stated that the country was suffering, as over speculation and over production, the wheat having opened to cultivation in four years more land than had been opened in two centuries previously, and immigration to the wheat lands having so enhanced their market value that people were over head and ears in debt in order to possess farms and lots or to increase their possessions. He stated that up to 1871 the area in staple crops in the United States was 30,000,000 acres, and by 1885 it had increased to 38,000,000 acres, the area having increased 132 per cent, while population increased by 44 per cent. He stated that the land being now substantially taken up and population having since 1885 caught up with and outrun production, the prices of staple crop products were bound to increase.

## FOREIGN NOTES.

ORAN, Oct. 19.—The garrison at Tlemcen, sixty-eight miles southwest of this port, and in the vicinity of the frontier of Morocco, has suddenly received orders to march upon and occupy Touat, the oasis in the Sahara concerning which France and Morocco have been disputing for some time past, in order to prevent its being occupied by the forces of the sultan of Morocco.

LONDON, Oct. 19.—Mrs. Parnell, widow of Charles Stewart Parnell, continues in a very weak and precarious condition. She is unable to sleep without the aid of drugs and is in a state of great nervous prostration. Her condition is such that she is unable to attend to her business.

BEIRUT, Oct. 19.—A dispatch received here from Breslau, the capital of the province of Silesia, says that an express train today came in collision at Kohlurt, a village, with a shunting engine. The express train was derailed by the shock. An official this morning states that five persons were killed and that many were injured by the collision.

## RAILWAY GOSSIP.

CHICAGO, Oct. 19.—Railroad men are not so far from the outlook as they were a month ago. They expected that by this time they would be put to their utmost exertions to furnish cars for east bound freight, but, instead, they find that there has been no strain whatever on the capacity of their roads. Not only is business dull, but its volume is actually decreasing from week to week, and what is more surprising, it continues to fall far short of the tonnage record for the corresponding period in 1890, which was regarded as an off year. This falling off can no longer be attributed to water competition, for lake shipments during the past two weeks have decreased even more than ship ments by rail. The coastwise movement of dead freight by the railroads last week, including both through and local consignments, amounted to 116,000 tons, against 90,000 tons for the preceding week, a decrease of 23,000 tons, and against 67,300 tons for the same period last year, a decrease of 10,877 tons. At the same time lake shipments fell from 100,125 tons for the preceding week to 82,670 tons last week.

## BALMACEIDA ALIVE.

CINCINNATI, Oct. 19.—Dr. Francis Rivers and Signor Carlos Delrio, late of the military staff of President Balmaceda of Chile, arrived here early yesterday morning and took the Pennsylvania train for New York. Neither could speak a word of English. They had with them Mr. Louis Bloch of Chicago, an interpreter. Through no fault of his, Balmaceda was not dead, all reports of suicide to the contrary notwithstanding, and that they expected to meet him in New York City. Signor Pedro Monti, who represented the congressional party of Washington, has been here a couple of days on business, the nature of which he did not divulge.

## A FIGHT FOR A WOMAN.

SAN FRANCISCO, Oct. 19.—Victoriano Velasco and Espinosa Ramirez, two young Mexican gallants of this city, have for some time been paying their respects to the same woman. She is a handsome young lady, but refused to encourage one or the other of them. The two rivals decided to settle the contest by a duel to the death. They chose a small room in a small hotel in New York City for the scene of the combat. They went there alone at midnight on Saturday night and, stripping to the skin, began the battle. Each man had a local ally. They had been fighting for some time when the attention of a policeman was attracted to the place by the noise. He forced an entrance and found both men in a terrible condition. They were each covered with blood, and found both men in a terrible condition. They were separated and both taken to a hospital. They will probably both die.

## PUBLIC HEALTH PROBLEMS.

KANSAS CITY, Oct. 19.—The American Public Health Association will begin its annual convention in this city tomorrow. The association's membership includes physicians and scientists from all parts of the North American continent. Preparations have been made for the entertainment of 600 delegates, many of whom have been invited from foreign lands. Dr. Frederick Montmabert of Quebec, president of the association; Dr. Irvine A. Watson, Concord, N. H., secretary; Dr. J. B. Hays, St. Louis, president of the American Association of Public Health Officers, and the Canadian and Mexican delegations. The convention assemblies tomorrow and will hold sessions three days. These sessions were embodied in a home rule measure and the Irish members kept true to them. Devoy kept these conditions faithfully about two years, and then, knowing that I dared not speak for fear of injuring the movement and that Parnell could not speak, began his conspiracy to destroy Parnell and his friends and his services. Davitt and Devoy were bound together in this conspiracy. I do not say that Dillon, O'Brien, McCarthy, Arthur, O'Connor and the rest of the party were aware of the reasons for or of the existence of their conspiracy, but they had been warned enough to have warranted them in taking a different course."

## BENSON TO SWING.

LEAVENWORTH, Kan., Oct. 19.—Charles A. Benson, convicted of the murder of Mrs. Mettman, whose mutilated dead body was found in a sack in the river at Leavenworth, was yesterday sentenced to be hanged on Nov. 4. Yesterday he was taken to the murderers' cell and will there remain until the day of the hanging. His old cell was found a letter in his hand, addressed to the editor of the German Post, in which the writer states his innocence and accuses John Mettman, the victim's husband, and Mary Rautzahn, the victim's daughter, of having committed the crime. He says that the murder was committed by the Mettmans and that he witnessed it from the outside through a window. Mary Rautzahn, he says, gave him money to go away, so that he would not turn up a witness against herself and father. It is generally believed that his alleged confession contains no truth.

## WOMEN DISFRANCHISED.

CHICAGO, Oct. 19.—In accordance with an opinion rendered by the county attorney, the board of election commissioners today issued instructions to clerks and judges in the election of 1892, to exclude women from the polls. The effect of this order is to deprive women of the right to vote in the election of 1892. The board of election commissioners today issued instructions to clerks and judges in the election of 1892, to exclude women from the polls. The effect of this order is to deprive women of the right to vote in the election of 1892.

## FREE DELIVERY EXTENSION.

NEW YORK, Oct. 19.—An organized effort is under way to secure from congress free mail delivery in country towns. The Farmers' Alliance, Patrons of Husbandry and other orders are canvassing the matter. Letters are being written to congressmen in favor of the project, and petitions to congress for free delivery are being circulated in many parts of the country. The farmers assert that a daily mail delivery at the door of the small farmer is the money value of their farms, and will be worth still more because it will keep them in touch with the markets and the outside world and rob farm life of its isolation and monotony.

## TURF WINNERS.

LEXINGTON, Ky., Oct. 19.—The fall running meeting of the Kentucky association commenced today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

CHICAGO, Oct. 19.—Garfield park winners: Violeta, Paul Dombey, St. Augustine, Mary McGowan, Bonair, Robin Hood.

INDEPENDENCE, Ia., Oct. 19.—The Independence Driving Park association opened its fall meeting today. Winners: Rook, Laidley, Rooka, Donnell, Kinsom, Clemence.

The above is a cut of the instrument used by DR. FERRILL in the examination for Catarrh and all Nose and Throat diseases. It enables the Doctor to see the condition of the affected parts, and, if needed, to treat them without the necessity of the Doctor's presence in every case of Catarrh he treats.

Dr. Ferrill has just returned from Chicago, where he has been taking a course in the Post Graduate School of Medicine, and is the only physician in the Southwest who has taken this course.
